Data Privacy and GDPR

European Commission. *Data protection explained.* Provides information on personal data, processing, GDPR principles and the territorial scope of GDPR.

[European Commission – Data protection explained](#)

European Commission. *Application of the GDPR.* Explains which organisations are subject to GDPR, including organisations established outside the EU.

[European Commission – Application of the GDPR](#)

European Commission. *Principles of the GDPR.* Explains the seven fundamental principles governing personal-data processing.

[European Commission – Principles of the GDPR](#)

EUR-Lex. *Regulation (EU) 2016/679 – General Data Protection Regulation, Article 3.* Provides the legal text defining the GDPR's territorial scope.

[EUR-Lex – General Data Protection Regulation](#)

European Commission. *Rules on international data transfers.* Explains GDPR requirements and safeguards for transferring personal data outside the EEA.

[European Commission – International data transfers](#)

Data Ethics

IBM. *What is AI Ethics?* IBM Think.

[IBM – What is AI Ethics?](#)

NIST. *Artificial Intelligence Risk Management Framework.* National Institute of Standards and Technology.

[NIST – AI Risk Management Framework](#)

NIST. *AI Risks and Trustworthiness.*

UNESCO. *Recommendation on the Ethics of Artificial Intelligence.*

[UNESCO – Ethics of Artificial Intelligence](#)

Data Governance

IBM. *What is Data Governance?* IBM Think.

[IBM – What is Data Governance?](#)

Microsoft. *What is Data Governance for Enterprise?* Microsoft Security.

[Microsoft – Data Governance for Enterprise](#)

DAMA International. *DAMA Data Management Body of Knowledge (DAMA-DMBOK).*

DAMA International – DAMA-DMBOK

DAMA International. *What is Data Management?*

DAMA International – What is Data Management?

Data.NSW. *Introduction to Data Governance.* Government of New South Wales.

Data.NSW – Introduction to Data Governance

Bias in AI

IBM. *What Is AI Bias?* Explains AI bias, its causes, types and potential consequences.

IBM – What Is AI Bias?

IBM. *What Is Data Bias?* Explains how biased training data can affect AI models and lead to discrimination and inaccurate decisions.

IBM – What Is Data Bias?

IBM. *What Is Algorithmic Bias?* Discusses algorithmic bias, its causes, risks and real-world examples.

IBM – What Is Algorithmic Bias?

IBM Developer. *Machine Learning and Bias.* Includes discussion of the Amazon recruitment-tool example and how training data can introduce bias.

IBM Developer – Machine Learning and Bias

Reuters. *Business leaders risk sleepwalking towards AI misuse.* Discusses the Amazon recruitment AI example and broader risks associated with biased AI.

Data Analytics vs Data Scientist vs Data Engineering vs Artificial Intelligence Engineering

IBM. *Demystifying data careers: Your path to success with IBM on Coursera.* Provides comparisons of Data Analyst, Data Scientist and Data Engineer roles and their skills.

IBM – Demystifying data careers

IBM. *How to Structure a Modern Data Team.* Discusses modern data-team roles, including data analysts, data scientists and data engineers.

IBM – How to Structure a Modern Data Team

IBM. *What is Data Engineering?* Explains the role of data engineers and the difference between data engineering, data analytics and data science.

IBM – What is Data Engineering?

IBM. *What is Data Science?* Explains the responsibilities, skills and tools associated with data science.

IBM – What is Data Science?

Business Intelligence

Microsoft. *What is Power BI?* Microsoft Power BI. Microsoft Power BI

Tableau. *Business Intelligence and Analytics.* Tableau

IBM. *What is Business Intelligence?* IBM – Business Intelligence

Microsoft. *What is Business Intelligence?* Microsoft – Business Intelligence
